

UAB HTCC

QUALITY AND ENVIRONMENTAL POLICY

UAB HTCC, a company specialising in the manufacture of prefabricated houses and installation of sound barriers, aims for the best compliance with customer needs, so that the orders are implemented in a professional manner and comply with the requirements of the contract and the product standards. We recognise and are aware of the current and potential negative impact on the environment by our operations, as they are related to the use of various resources, waste generation, noise, and dust emissions. In pursuit of these goals, we have implemented an integrated Quality and Environmental Management System in accordance with ISO 9001:2015 and ISO 14001:2015 standards in our company.

The company adheres to the established quality and environmental policy.

Company management undertakes to:

- continuously improve the quality and environmental management system according to the requirements of ISO 9001:2015, ISO 14001:2015;
- educate employees by improving their competencies, promoting innovation, and increasing the efficiency of their work
- implement cleaner production, environmental protection, resource efficiency and rational use of resources in all areas of production;
- pursue the highest quality standards when delivering products to our Customers;
- periodically assess the effectiveness of the quality and environmental management system and annually review the quality and environmental management objectives;
- improve working conditions in industry by applying the latest technological advances;
- comply with applicable quality, environmental, legal, customer requirements

In developing cooperation with suppliers and subcontractors in the field of environmental protection, HTCC UAB defines the necessary environmental requirements, controls and monitors compliance with these requirements by suppliers and subcontractors.

All employees of the company are made aware of this quality and environmental policy and are guided by its provisions in their activities.
